CLIA Statement on CDC No Sail Order Announcement

July 16, 2020 (Washington, DC)—As reflected in today’s announcement, CLIA and its member lines remain aligned with the CDC in our commitment to public health and safety. We are also pleased that the CDC has announced its intention to issue a request for information about the industry’s resumption of passenger operations. As we continue to work towards the development of enhanced protocols to support the safe resumption of cruise operations around the world, we look forward to timely and productive dialogue with the CDC to determine measures that will be appropriate for ocean-going cruise operations to resume in the United States when the time is right.
